A flowerpot with a strong visual shape giving a character to the room both outside and inside. Because of its smooth round shape and the many different colours Scoop fits in almost anywhere in urban space.

Scoop is well suited for trees and bushes.

SCOOP

INNOVATIVE EUROPEAN PRODUCTS FOR UNIQUE ENVIRONMENTS

The plastic material of Scoop Light combined with green LED technology has given me the chance to create a particular poetic caprice. Scoop Light uses numerous variations combined with low energy-consumption to provide a personal night-time atmosphere in romantic, everyday and party-settings.

A glowing flowerpot with a strong visual shape giving a character to the room both outside and inside.

Because of its smooth round shape and the many different colours Scoop Light can be placed in many urban spaces. While functioning as flowerpot for trees or bushes the flowerpot lights up in the evening and provides a cosy atmosphere in town squares, patios, entrances and café environments.

Built-in LED-light tube with direct connection for 230V. Electrical installation and light tube withstand moisture and heat / cold.

STARFISH MINI

INNOVATIVE EUROPEAN PRODUCTS FOR UNIQUE ENVIRONMENTS

An urban element that is hard to categorize. A sculptural mix between a robust bollard, resting place, rendezvous and bicycle parking

Jello – as indicated by the name – was inspired by a cake- or jelly shape. The simple trick of turning it upside-down gave rise to a series of utility scenarios: Light can flow through the sides of the shape; bicycles can be squeezed in between the legs and the entire, mobile entity can be used for rest or traffic-regulation.

The cake-shape is a multifunctional design object for modern, dynamic urban space

Moulded white/grey/black fibrous concrete. Resists wear and weather. Fibrous concrete is a dynamic material. Minor, cosmetic cracks may occur over time. Reinforced with stainless steel to strengthen the legs.
